

**Name of Journal:** World Journal of Translational Medicine

**ESPS Manuscript No:** 20192

**Manuscript type:** Review

**Contributions of Neutrophils to the Adaptive Immune Response in Autoimmune Disease**

**Kathryn M. Pietrosimone, Peng Liu**

We sincerely thank the reviewer's comments on our manuscript and address the concerns below.

1. As suggested by the reviewer, the word "new" has been removed from the title.
2. Information regarding the impact of pro-inflammatory cytokines and anti-inflammatory drugs to the lifespan of neutrophils has been added to the introduction section.
3. The manuscript has gone through extensive editing to improve the quality of writing and science.
