The authors of this article declare that:

- The manuscript is not simultaneously being considered by other journals or already published elsewhere.
- The manuscript has no redundant publication, plagiarism, or data fabrication or falsification.
- The authors have no conflict of interest related to the manuscript.
- All experiments involving animals and human subjects were designed and performed in compliance with the relevant laws regarding the humane care and use of subjects (Not applicable).
- The material contained within the manuscript is original, with all information from other sources appropriately referenced. Written specific permission granted by any existing copyright holders prior to publication is clearly cited and available.

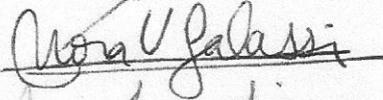

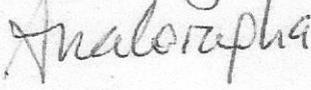

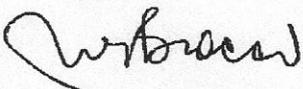

- The authors agree to transfer to Baishideng Publishing Group Inc exclusive copyright ownership for all formats of the manuscript (including print and electronic formats, English and non-English language formats, and subsequent editions such as Erratum), in addition to all rights for (1) granting permission to republish or reprint the materials in whole or in part, with or without a fee; (2) printing copies for free distribution or for sale; and (3) republishing the materials in a compendium or in any other format. The author/s acknowledge that the Baishideng Publishing Group Inc distributes the manuscript under the terms of the Creative Commons Attribution-NonCommercial License, which permits use, distribution, and reproduction in any medium, provided that the original work is properly cited, the use is non-commercial and is otherwise in compliance with the license.

- The authors agree to publish the related documents (peer review report, answering reviewers, CrossCheck report, signed copyright assignment, *etc.*) of the manuscripts at the same time the manuscript is published online.

- There are no errors in grammar, syntax, spelling, punctuation, or logic.

- All figures and tables have been correctly placed and clearly identified, and meet the journal's standards of high-resolution quality.

- The references are numbered according to their order of appearance in the main text of the manuscript.
