The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewers

Reviewer 1

(1) The contrast CT images were added and the gross findings of resected specimen were described.

(2) The pathogenesis of intussusception in acute leukemia was discussed. The metastatic intestinal mass, enlarged lymph nodes or haematoma from acute leukemia may act as leading point.

(3) The description in the reference by Kini S et al. "Small Intestinal Obstruction with Intussusception due to Acute Myeloid Leukemia: A Case Report" was confirmed. Although imaging test was not done, laparotomy was performed and a segment of thickened ileum which had led to ileo-ileal intussusception was found.

Reviewer 2

(1) The abstract has been modified and improved.

(2) The case report has been modified and the differential diagnoses were deleted.

(2) The CT images were added.

(3) The statement in the first paragraph of discussion was referenced.

(3) More cases of leukemia including acute and chronic leukemia were added

(4) The grammar is corrected and the manuscript was edited by native speaker of English.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.
