Dear Editor,

Please find enclosed the edited manuscript in Word format.

Title: Diagnosis and management of primary sclerosing cholangitis-perspectives from a therapeutic endoscopist

Authors: Kunjam Modha and Udayakumar Navaneethan

Name of Journal: *World Journal of Hepatology*

ESPS Manuscript NO: 12535

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) Thank you for the opportunity to review this paper. I believe many of the building blocks for a useful "perspectives" article on diagnosing and managing PSC are there but they can be better organized and presented.

(2) The figures and descriptive summary can improve the article.

(3) Contents are well written. There are some spelling mistakes. This paper has no Tables, no Figures. I strongly recommend to make some Tables of summarizing the results of reported papers. In fact, we cannot understand the contents easily because of no Tables and no Figures.

We have added 2 figures and 1 table to the manuscript to organize it better.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Hepatology*.

Sincerely yours,

Udayakumar Navaneethan, M.D, FACP
