

October 31, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 12636-review.doc).

Title: Causative Anti-diabetic Drugs and the Underlying Clinical Factors for Etiology of Hypoglycemia in Patients with Diabetes

Author: Hidekatsu Yanai, Hiroki Adachi, Hisayuki Katsuyama, Sumie Moriyama, Hidetaka Hamasaki, Akahito Sako

Name of Journal: *World Journal of Diabetes*

ESPS Manuscript NO: 12636

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) the title: the word 'etiology' might not be correct. ?

We changed the title from "Etiology of Hypoglycemia in Patients with Diabetes" to "Causative Anti-diabetic Drugs and the Underlying Clinical Factors for Etiology of Hypoglycemia in Patients with Diabetes."

(2) It is advised to include a list of abbreviations.

We included a list of abbreviations.

(3) The abbreviation 'NPH' in NPH-insulin is not explained. ?

We added the following expression. neutral protamine Hagedorn (NPH)

(4) page 8-9: 'glimepiride was the most frequently prescribed drug in SU[33].': this statement is not clear. ?

We changed from

In a retrospective analysis of 320 severely hypoglycemic patients with diabetes who presented to an ED of Uijeongbu St. Mary's Hospital from January 1, 2006 to December 31, 2009, glimepiride was the most frequently prescribed drug in SU[33].

To

In a retrospective analysis of 320 severely hypoglycemic patients with diabetes who presented to an ED of Uijeongbu St. Mary's Hospital from January 1, 2006 to December 31, 2009, glimepiride was the most frequently prescribed drug in patients with severe hypoglycemia[33].

(5) The only recommendation is to check the use of 'was' or 'were', which might be better 'is' and 'are'.

We checked and corrected.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,
