Title: Stem Cells: Sources, and Regenerative Therapies in Dental Research and Practice

Author: Lobna Abdel Aziz Aly Ahmed

Name of Journal: World Journal of Stem Cells

ESPS Manuscript NO: 12691

Answer for reviewer (00742195):

- 1). On page 2, line 9. The word “tissues” may need to be changed to “tissue” already corrected
- 2). On page 2, lines, 17-19. The sentence “For example, a specific type of multipotent stem cell called a mesenchymal stem cell has been shown to produce bone, muscle, cartilage, fat, and other connective tissues.” *this sentence had been changed ad become more explained in page 2 (last paragraph and page 3 (1st paragraph)*
- 3). *4), 5) have been changed as suggested.*
- 6) figure 1. panel A. B, C and D have been described
- 7) figure 4. Labeling in photos was *described*

Answer for reviewer 00742144:

As regard the use of stem cells in pulp revascularization, *the review concerns about different sources of stem cell and their uses especially from oral surgery and periodontology point of view*

The manuscript has been improved according to the suggestions of reviewers:

All the corrections of the reviewers had been corrected in the manuscript

Thank you again for publishing our manuscript in the *World Journal of Stem Cells*

Sincerely yours,

Lobna A. Aly
