

Dear Editor,

I'm Ketty Leto and I'm a Neuroscience researcher at the Department of Neuroscience of the University of Turin. I've recently edited the language of the paper of Fenoglio et al. "Epidemiology, Clinical-Treatment patterns and Outcome in 256 Hepatocellular Carcinoma cases". I'm not a native-English expert but I use English language for my scientific activity. I'm first author and co-author of several peer-reviewed scientific papers.

Sincerely,

Ketty Leto, PhD.

A handwritten signature in black ink that reads "Ketty Leto". The signature is written in a cursive style with a large, stylized 'K' and a long, sweeping underline.
