

21 October 2014

Dear Editor

Please find enclosed the edited manuscript in work format (filename:13193/review..)

**Title:** Jaundice associated pruritus: a review of pathophysiology and treatment.

Author Ramez Bassari, Jonathan Koea.

Name of Journal: World Journal of Gastroenterology

ESPS manuscript number: 13193

Thank you for the reviews of this manuscript. We have responded to all of the reviewers comments and believe that it is a much better manuscript. In terms of the specific changes;

1. Author contributions have been listed on the title page
2. A core tip has been added on page 4.
3. All references in the text have been reformatted to superscript with square brackets
4. The DOI numbers and links have been added for all references
5. Figure 1 has been enhanced with further labelling to address the specific issues raised by reviewer 2.
6. In table 1 the unfilled cell has been filled and all abbreviations have been clarified as suggested by reviewer 2.

Many thanks for considering this paper in the World Journal of Gastroenterology.

Kind regards

Yours sincerely
