Dear Dr. Huang,

I read and checked the English language in the paper "The role of E3 ubiquitin ligases in lung cancer" by B. C.Snoek, L.H.A.M. de Wilt, G. Jansen, G.J. Peters.

The paper used correct English and hence the language easily reached (actually exceeded) Grade A. I, therefore, recommend it to be edited and publish it as it is in the World Journal of Clinical Oncology.

I am a native English born citizen and scientist with a lot of experience in reading and editing paper.

Yours Sincerely,

Dr. R.J. Honeywell
