

**Institutional review board (IRB) statement**

Villejuif, November, 18th, 2014

The case report «Self-medication of achalasia with cannabis, complicated by a cannabis use disorder Cannabis in achalasia and manometry» was written retrospectively, with the written patient's consent. For this kind of case report, usually no review board is required nor available in our Institution, as there is no impact on the care providing process. We kindly ask for an exemption from providing this document that cannot be available.

Best regards,

Pr Henri Jean Aubin
