

December 25, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 15145-review.doc).

Title: Skin Cancer in Immunosuppressed Transplant Patients: Vigilance Matters

Author: Ozan Unlu, Emir Charles Roach, Alexis Okoh, May Olayan, Bulent Yilmaz, Didem Uzunaslani, Abdullah Shatnawei

Name of Journal: *World Journal of Hepatology*

ESPS Manuscript NO: 15145

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) It is interesting but I find it will be useful to enter more details concerning the histology and surgery performed.

Sites of the multiple surgeries and a detailed histology were given.

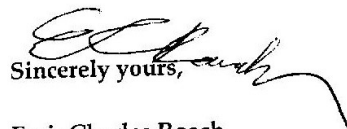

(2) The language is not particularly fluent and should be reviewed

The final form of manuscript had been corrected by a native speaker of English prior to submission, however upon the request of the reviewer it was reviewed again.

3 References and typesetting were corrected

Also, a new author, Bulent Yilmaz, was added to the authors' list in the revised manuscript, since he met all the criteria for an authorship standard proposed by ICMJE.

Thank you again for publishing our manuscript in the *World Journal of Hepatology*.

Sincerely yours,

Emir Charles Roach
