HUMAN RESEARCH PROTECTIONS PROGRAM

Date: January 9, 2014  
To: Dr. Thomas Savides  
Re: Project #131435X  
Diagnostic yield of random duodenal biopsies performed for abdominal pain,  
diarrhea, weight loss, and iron deficiency anemia

Dear Dr. Savides:

Thank you for providing a response to our letter dated November 20, 2013. It is acknowledged that you have submitted a revised Research Plan and Biomedical Standard Facesheets as requested. It is acknowledged that the appropriate sections of the study documents have been revised to clarify number of subjects' medical records to be reviewed and inclusion of exclusion criteria.

This information has been accepted and is now an official part of the IRB maintained study file.

This information is now part of the IRB-maintained study file. Thank you for keeping us informed.

On behalf of the Institutional Review Board,

A handwritten signature in black ink, appearing to read "M. Caligiuri", with a long horizontal flourish extending to the right.
