

Format for ANSWERING REVIEWERS

March, 19, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 16578-edited.doc).

Title: Intraductal papillary mucinous neoplasm of the ileal heterotopic pancreas in a patient with hereditary non-polyposis colorectal cancer: A case report

Author: Sang Hwa Lee, Wook Youn Kim, Dae-Yong Hwang, Hye Seung Han

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 16578

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated except the title. I also know the title is too long however I and reviewer (00503469) think this title is accurate and reflects the main findings of the present study.

2 Revision has been made according to the suggestions of the reviewer

(1) It would be interesting also to present the age at which the relatives were diagnosed with cancer.

: We thank the reviewer for pointing this out, and completely agree with the reviewer's opinion.

However, the patient can't recall the relatives were diagnosed with cancer.

(2) How did the clinician find a submucosal mass on the terminal ileum? Clinically by palpation? Did he perform ultrasound?

: The patient had no specific symptom and clinician could not find any specific sign. However clinician found a submucosal mass by routine follow up abdominopelvic CT. I added it in the manuscript.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Sang Hwa Lee
