

March 14, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 16679-Editorial.doc).

Title: Mycosis fungoides and Sézary syndrome: Role of chemokines and chemokine receptors

Author: Stephen Chu-Sung Hu

Name of Journal: *World Journal of Dermatology*

ESPS Manuscript NO: 16679

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated and list of abbreviations has been added.

2 Revisions have been made according to the suggestions of the reviewers:

- (1) The "Clinical Features" section has been condensed.
- (2) The "Histopathology and Immunophenotype" section has been shortened.
- (3) The "Etiology and Pathogenesis" section has been condensed, focusing mainly on the updates related to cytokines involved in the pathogenesis.
- (4) The "Management" sections have been shortened.
- (5) The discussion regarding the newer chemokines has been clubbed with the pathogenesis, and is followed by the principles of treatment and newer treatment options.

3 References and typesetting have been corrected.

Thank you again for publishing our manuscript in the *World Journal of Dermatology*.

Sincerely yours,

Stephen Chu-Sung Hu, MBBS, M.Phil
