

Date- 29th May 2015

Review Board Certificate

1) It is to be informed to whoever concerned that the **Research work** of the **case report study** titled **ESPS 17025 " Malignant Peripheral Nerve Sheath Tumour Of Proximal Third Tibia Treated By En-Bloc Resection"**

is conducted in **MIMSR medical college, Latur, Maharashtra, India**. The work done and contributions of all authors is original and ethical. The review board appreciates their work and permits them to publish/contribute/share their work/knowledge in indexed medical journal for global readers.

2) **Secondly Informed consent** is also very important in clinical case publication, but when we are disclosing his/her identity in the text of manuscript. However, when we are not disclosing it there is no need to disclose his/her identity by taking his or her written consent

So please proceed with publication process further.

Thanking you!

Sincerely,

Professor, Dr S. B Ingle

Secretary 'R & DC' and 'Review board'

MIMSR Medical College, Latur, India
