IACUC Project Approval Number

Rasul Chaudhry, PhD

Principal Investigator

REVISED PROJECT

Your Request for Revision of your Application for Use of Vertebrate Animals has been reviewed by IACUC and given full approval.

☐

New IACUC Project Approval Number*

Principal Investigator

* Please use this new approval number, with the revision number indicated, in all future activities.

A Cover Letter, similar to that used when addressing manuscript publications, needs to be attached to the application in RAM when submitting revisions to a previously approved IACUC application, or when submitting required modifications (in order to secure approval). Address required modifications in the same chronological order as they are listed in the Committee Action Record. Strike through the parts of the application that are being revised. (Do not use the Track Changes option to do the strike through or to make required modifications or revisions. Use the Strike Through option [a**b**e] under the font tool bar.) The revisions need to be made in a readable typeface and of a different color of type so that anyone reviewing the modifications can easily identify where they are within the application.

Authorization for Project Commencement

Keith Williams

IACUC Chairperson: Keith Williams, PhD

4/14/2014

Date

Approval Period:

April 1, 2014 through March 31, 2017

Annual Review Dates:

April 1, 2015 and April 1, 2016

Project Completion Summary Due Date:

March 31, 2017
