Science Editor
World Journal of Gastrointestinal oncology

Dear Dr. Fang-Fang,

On behalf of my co-author, Dr. Kerlijne De Groote and myself, I would like to resubmit by enclosure of this letter a revised version of our invited review (ID 17738), entitled, **"Intrahepatic therapy for liver-dominant metastatic colorectal cancer"**.

Below you can find point by point the changes that have been incorporated in the manuscript according to the questions of the reviewer and editorial board

We would like to thank you for considering our work to be published in World Journal of Gastrointestinal oncology and are available if you need further information.

We attest this manuscript is not under consideration elsewhere.

With regards,

Comments to the reviewers

Here you can find point by point the changes that have been incorporated in the manuscript according to the questions of the reviewer. Changes in the manuscript have been highlighted in yellow.

REVIEWER 1:

In this invited review, authors provided insights on the published literature for locoregional treatment of liver metastases in metastatic colorectal cancer. The paper is generally well written and creates an awareness on the subject. In conclusion, the manuscript can be published in its current form.

REPLY: we thank the reviewer for this positive comment. No changes are required according to the reviewer
