Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: AMEgc3265_locked_for_submission-1.docx).

Title: Uncommon complications of therapeutic endoscopic ultrasonography: What, why, and how to prevent

Author: Tanyaporn Chantarojanasiri, Pitulak Aswakul, Varayu Prachayakul

Name of Journal: *World Journal of Gastrointestinal Endoscopy*

ESPS Manuscript NO: 17827

Regarding the reviewers' comments, we have already revised our manuscripts as the following:

Reviewer#1

1.A: Misspelling page 5 line 6 extrahaptic page 9 line 22 include page 12 line 20

B:mild pancreatitis questions please add the rate of the uncommon complications"

C: Complications that were less common included biloma, cholangitis, and perforation, which were related to the use of needle-knife cautery. this sentences it is not completely understandable,"

Answer: we have already edited this sentence in the revised manuscript (highlight)..

2. A : One technical concern involving guidewire shearing by the EUS-needle bevel was remedied after radiologic intervention(23)". was remedied?? (was avoided?? was cured or treated???) by radiological intervention). could you rewrite the sentence in another way what does it mean?

Answer: we have already edited this sentence in the revised manuscript(highlight). .

2. B: "by retracting gently" it does mean retracting slowly and with a lot of care to avoid any resistance ? page 10 line 5

Answer: we have already edited this sentence in the revised manuscript (highlight)..

3. How much common are the Uncommon complications from EUS-guided CPN ; please could you add the estimated rate of these uncommon complications in the longest series you have found

Answer: we have already edited this sentence in the revised manuscript(highlight). .

Reviewer#2

1. Please add the references in the text and also change these into the journal style.

Answer: we have already edited this sentence in the revised manuscript (highlight)..

2. The clinical application of the study is very important. The authors should to recommend the readers to apply this knowledge into the routine clinical practice.

Answer: we have already edited this sentence in the discussion part(**highlight**).

Reviewer#3

1. Excellent review about rare complications of EUS FNA interventional procedures -very interesting. Endoscopists have to know! Please run spell check - spacing errors, few typos

Answer: we have already edited this sentence in the revised manuscript .

Thank you again for publishing our manuscript in the *World Journal of Gastrointestinal Endoscopy*.

Sincerely yours,

Tanyaporn Chantarojanasiri
Varayu prachayakul
Pitulak Aswakul
