

World Journal of Gastroenterology

Disclosure of Interests

The World Journal of Gastroenterology requires disclosure of interests by all authors so that the editors and readers of the journal may determine whether any *conflict* of interest exists. A conflict of interest does not preclude the authors from contributing to the journal but it is essential that this is clearly and openly stated in the manuscript. This form must be completed with details for ALL authors.

~

Authors' Names: Daniele Crocetti, Andrea Palmieri, Giuseppe Pedullà, Vittorio Pasta, Valerio D'Orazi, Gian Luca Grazi

Manuscript Title: "Peliosis hepatis: personal experience and literature review"

Date of completion: April 10, 2015

~

In each of the questions that follow, for every author, text must be entered. If no competing interest exists then please type "No interest declared"; if any potential competing interest does exist, then enter details, including the value of any financial involvement and any aspect that may represent a *conflict* of interest in your contribution to the journal.

~

1. **Commercial organisations:** within the past 5 years, have *you or a member of your household** had any involvement with commercial organisations whose business or financial interests may be affected by the activities of the British Journal of Anaesthesia or the publication of your manuscript? This includes the receipt of funding from commercial companies, the conduct of contracted research, and industry-supplied funding for lectures, travel and department support.

NO

~

2. **Consultancy / board activity:** within the past 5 years, have *you or a member of your household** advised or acted as a consultant for any organisations whose activities affect or compete with the British Journal of Anaesthesia or whose activities may be affected by the publication of your contribution? This includes membership of editorial boards of journals publishing in anaesthesia, critical care and pain medicine, consulting for equipment or pharmaceutical manufacturers, or membership of national/international committees relating to the subject matter of the manuscript.

NO

~

3. **Personal financial gain:** do *you or a member of your household** have any personal financial interests (e.g. ownership of stocks/shares) that may be affected by the activities of the World Journal of Gastroenterology or the publication of your contribution? Do *you or a member of your household** have any patents (received or pending) whose success or commercial viability may be affected by the activities of the World Journal of Gastroenterology or the publication of your contribution?

NO

~

By selecting **YES** in the field below, I confirm that:

1. I provide this information to the World Journal of Gastroenterology with my full consent
2. I attest that the information I have provided in this form is correct.
3. That all authors have seen this completed form and approve of its contents.

YES
