Dear Editor,

Greetings to you from Atlanta,

As per the request of Dr. Sobia Manzoor, I have asked my fellow colleague Dr. Chris Ibegbu to have a language check on the manuscript entitled "HBV Therapy: What's the future holding for us?", as a native American he checked over the manuscript and provided his recommendation with his letter of support (please see the attached letter below).

I recommend this manuscript to be published in its form in WJG.

Thank you,

Sincerely,

Vijayakumar Velu
