Dear WJBC Editor,

Please find my personal guarantee that the review manuscript entitled "Targeting Amino Acid Metabolism in Cancer Growth and Anti-Tumor Immune Response" has reached or exceeded Grade A in English proficiency without a need for employing a professional editing service. I would like to add that Dr. Wayne Wilson (Departmental chair of the Biochemistry Department at Des Moines University) critically evaluated/edited the manuscript and he also concluded that the manuscript is Grade A in English proficiency.

Sincerely yours,

Elitsa Ananieva, PhD
