Hello

A single case report does not require IRB/HIC approval per HIC policy. Thank you for checking with the HIC. If you have any additional questions do not hesitate to contact me.

Thank you

*Lynne Paul*

**Subject:** IRB/HIC Case Report Exemption

Dear Madam/Sir,

Dr. Cappell and I are working on a single case report of appendicitis due to Aspergillus. This does not involve review of any other patient records.

We understand that a single case report as this one does not require IRB/HIC approval.

Please confirm that this is still the policy at William Beaumont Hospital HIC.

Thank you,

Mihajlo Gjeorgjievski, MD

Internal Medicine Resident
