

## Format for ANSWERING REVIEWERS

August 10, 2015

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 20335-edited-review.doc).

**Title:** Current status of familial gastrointestinal polyposis syndromes

**Authors:** Ioan Jung, Simona Gurzu, Gligore Sabin Turdean

**Name of Journal:** *World Journal of Gastrointestinal Oncology*

**ESPS Manuscript NO:** 20335

### Reviewer's opinion

The paper concerns an almost unknown and fascinating field of gastroenterology; the review conducted by authors is wide and quite complete. In my opinion the section regarding genetic counseling and criteria for surveillance must be widened and more detailed according to the latest specific knowledge; the follow-up criteria must be specified especially for the most common diseases like FAP. Add something more about the diagnostic method of surveillance of the small bowel such as capsule endoscopy and/or entero-CT-scan or entero-MRI.

### Authors' answers

Thank you for your positive answer! In the section regarding genetic counseling and criteria for surveillance new aspects were added in blue, according to your suggestions. Table 1 was also modified in blue and List of references was completed in blue with new titles.

Thank you again for publishing our manuscript in the *World Journal of Gastrointestinal Oncology*

Sincerely yours,  
Prof. Simona GURZU, MD, PhD
