Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 20637-Revised manuscript).

Moreover, I am sorry to inform you that Professor Ta-Chih Liu's name was left out because of my clerical negligence in the final check. I have made the necessary correction in the list of all the authors in this version. Would you please include his name in our paper so that the list will be complete? Thank you very much for your assistance.

**Title:** Mutation analysis of 13 driver genes of colorectal cancer-related pathways in Taiwanese patients

**Author:** Yuli Christine Chang, Jan-Gowth Chang, Ta-Chih Liu, Chien-Yu Lin, Shu-Fen Yang, Cheng-Mao Ho, William Tzu-Liang Chen, Ya-Sian Chang

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 20637

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated
2. Revision has been made according to the suggestions of the reviewer  
(1) The authors should provide a complete list of abbreviations and/or acronyms used throughout the manuscript, including protein and gene names.

**Re: The abbreviations have been added in the revision.**

(2) Figure 1 is too small to be read easily, and the material suits just inclusion in a Table. Hence these figures could be enlarged to be made readable and included as a Supplementary Figure.

**Re: All figures have been changed to supplementary and submitted as excel and PPT format.**

Sincerely yours,

Ya-Sian Chang
