

### **Response to Reviewers' comments:**

Dear Editor: The case clinical practice and review of current guidelines for dyslipidemia treatment by the authors is well written and comprehensive. I have no additional comment and suggest to accept this paper.

Thank you.

The only minor issue was that on line 229, page 11, the subheading "U.S. Department of Veteran Affairs and U.S. Department of Defense (VA/DoD) 2014" should be highlighted in bold.

**We have proceeded with this modification as suggested.**

This is a fine summary of various guidelines about the management of dyslipidemia. This review was well-written and worth publishing.

Thank you.

In minor points, there should be some references about different cardiovascular risks of various ethnic groups (Line 252-261).

**Thanks for this observation, we agree that this is important to provide additional resources on. An authoritative document that handles this issue is the ACC/AHA risk assessment guideline. Therefore, we feel it is best to direct readers to this specific document. We have added it as reference 25. The reference is Goff DC, Jr., Lloyd-Jones DM, Bennett G, Coady S, D'Agostino RB, Gibbons R, Greenland P, Lackland DT, Levy D, O'Donnell CJ, Robinson JG, Schwartz JS, Shero ST, Smith SC, Jr., Sorlie P, Stone NJ, Wilson PW, Jordan HS, Nevo L, Wnek J, Anderson JL, Halperin JL, Albert NM, Bozkurt B, Brindis RG, Curtis LH, DeMets D, Hochman JS, Kovacs RJ, Ohman EM, Pressler SJ, Sellke FW, Shen WK, Smith SC, Jr., Tomaselli GF. 2013 ACC/AHA guideline on the assessment of cardiovascular risk: a report of the American College of Cardiology/American Heart Association Task Force on Practice Guidelines. The authors reviewed the dyslipidemia management in primary prevention of cardiovascular disease. In this review, they summarized the current dyslipidemia guidelines appropriately. This review is well-written and educative. Regarding this review, I have no questions and requests

**We appreciate the positive feedback.**
