

Biostatistics statement: The statistical methods of our original contribution entitled "Under-diagnosing and Under-treating Iron-Deficiency in Hospitalized Patients with Gastrointestinal Bleeding" were not reviewed by an independent biomedical statistician. However, the first (El-Halabi MM) and corresponding (Salyers Jr. WJ) authors are both trained in biomedical statistics and they both approve the statistical methods used in analyzing and reporting the data in this manuscript.

M. El-Halabi
