Revision has been made according to the suggestions of the reviewer.

Responding to reviewer 1, we divided the Ms into more subsections and added a summary words to each subtitle, making the Ms more understandable to the readers. We also avoided abbreviations in the abstract and corrected grammatical and typical errors according to the suggestion.

Responding to reviewer 2, we included transgenic mice studies on hepatitis B whole genome and LHBs in the text.

Please note that the corrections have been made using red letters.

We are not familiar with CrossCheck analysis and Google Scholar Search. We are currently working on these programs to make it possible to work in our hands. Please let us know if you immediately require these files. We are including files which we are ready to submit. Sorry for this inconvenience.

Sincerely yours,

A handwritten signature in black ink that reads 'Shogo Ohkoshi'.
