### Response to Reviewer's comments

**Reviewer 1 (00069105) comments:** The case is interesting, well written and easy to read. References are new and adequate. Images are good quality. I think that a table including with previous cases like yours will improve the paper.

**Response:** Thank you for your comments. We are glad that you recommend our article for publication. Unfortunately, we could not find any other cases of cardiac liposarcoma causing metastasis to the small bowel. Therefore, we were not unable to create a table of similar cases. Please let us know if you have any other suggestions.
