

Dear Science Editor FF Ji
World J Methodology

f.f.ji@wjgnet.com

Referring to your letter on 2016-02-16 and to our original revised manuscript 21912 on 2015-11-16 I kindly oi inform you as follows:

1. Attached you will find the singed conflict of interest statement in handwritten.
2. I will send to you the audio core tip part when it is ready in the audio center of the University of Eastern Finland in the near future.
3. I made the corrections to your reply paper **in red signs**. To the text I added the ref.no. **49**:
Little *et al*^[17] , **Weykamp *et al***^[49] and Lindblad and Nordin^[50].
4. I found some missing/error signs in the reference list:
14 Finke A [
25 Weykamp C]
29 Nathan DM [
33 SFKK [
58 Gordon-Gseagu VLZ [
5. I corrected the legend of the figure 2 **as the red text**.
6. I changed the legends and the contents of the three tables to the MS Excel format.

I will send today to you the legend and tables as a separate file. I also changed the content of the Table 1B of 2014 to the very similar content of that in autumn 2015, which was not in our hands in summer 2015. This corresponds better to the time period of the Figure 2. The tables are enclosed also in pdf-format.

I wish that our manuscript now will fulfill your requirements for publication.

Yours sincerely

Ilkka Penttilä
