We thank the reviewers for their reviews and comments. We have revised the manuscript to address the concern of the single reviewer requesting changes. We have made a comment on the placebo rate in the current study in comparison to what has previously been reported in abdominal pain studies in children. This was added to the first paragraph of the Discussion on pg. 11.

Thank you for your consideration of this manuscript. If you have any other questions or comments, please let me know.

Sincerely,

Craig A. Friesen, MD
