Observational Study

Multicenter cooperative observational study of idiopathic pulmonary fibrosis with non-small cell lung cancer

Ebi N *et al.* Observational study of IPF with NSCLC

Research fund and Funding sources

This study was funded by Clinical Research Support Center Kyushu (CReS Kyushu), and carried out as LOGIK (Lung Oncology Group in Kyushu)0603 study.

CReS Kyushu is a non-profit organization independent of study sites, and receives contribution about the overall activity expense widely from the pharmaceutical company (22 companies in 2015) and discloses a company name on HP about the company concerned.

<http://www.cres-kyushu.or.jp>

CReS Kyushu acts as Research Administration Office of LOGIK, and also supports a participating researcher from the study protocol preparation to the results publication.

CReS Kyushu does not participate in medical therapy performed in a clinical study.
