

CONFLICT-OF-INTEREST STATEMENT

A conflict-of-interest statement is required for all article and study types. In the interests of transparency and helping reviewers to assess any potential bias in a study's design, interpretation of its results or presentation of its scientific/medical content, the Baishideng Publishing Group (BPG) requires all authors of each paper to declare any conflicting interests (including but not limited to commercial, personal, political, intellectual, or religious interests) in the title page that are related to the work submitted for consideration of publication. In addition, reviewers are required to indicate any potential conflicting interests they might have related to any particular paper they are asked to review, and a copy of signed statement should be provided to the BPG in PDF format.

Regarding the article:

World Journal of Radiology: Manuscript #22449

" Endocrine Radionuclide Scintigraphy with Fusion Single Photon Emission Computed Tomography/Computed Tomography "

Ka Kit Wong, Arpit Gandhi, Benjamin L. Viglianti,
Lorraine M. Fig, Domenico Rubello, Milton D. Gross

The authors of this article listed above do not have any disclosures or conflicts of interest to declare.

Sincerely,

Ka Kit Wong
