Re: ID 00573381

“Prednisolone inhibits SaOS2 osteosarcoma cell proliferation by activating inducible nitric oxide synthase” by Alessandra Cazzaniga, Jeanette AM Maier and Sara Castiglioni

This study was performed on human cells that are commercially available and fully characterized.

It did involve human subjects nor animals. Biostatistics was not required.

The study was reviewed and approved by the Institutional Review Board of The Department of Biomedical and Clinical Sciences – University of Milan.

Jeanette A.M. Maier, M.D.
