

Dear Editors,

thank you for inviting me to submit this review.

Please, find herewith enclosed the review article entitled "Transoral Incisionless Fundoplication for Gastro-Esophageal Reflux Disease: Techniques and Outcomes".

The manuscript has been revised according to guidelines and requirements of World Journal of Gastrointestinal Pharmacology and Therapeutics.

In particular:

- request 1: the conflict-of-interest statement has been signed by Authors and mentioned in the text, as requested.
- request 2: an audio core tip has been registered.
- request 3: reference numbers to publications have been modified according to your suggestion.

I hope this review article can be of interest for your journal.

Best regards

Prof. Pier Alberto Testoni, M.D.
