### ESPS Peer-review Report

**Name of Journal:** World Journal of Cardiology

**Ms:** 2410

**Title:** PPARs Regulate Redox signaling in the cardiovascular system

**Reviewer code:** 00060498

**Science editor:** l.l.wen@wjgnet.com

**Date sent for review:** 2013-02-20 15:44

**Date reviewed:** 2013-02-26 15:36

CLASSIFICATION	LANGUAGE EVALUATION	RECOMMENDATION	CONCLUSION
<input type="checkbox"/> Grade A (Excellent)	<input type="checkbox"/> Grade A: Priority Publishing	Google Search:	<input type="checkbox"/> Accept
<input type="checkbox"/> Grade B (Very good)	<input checked="" type="checkbox"/> Grade B: minor language polishing	<input type="checkbox"/> Existed	<input type="checkbox"/> High priority for publication
<input checked="" type="checkbox"/> Grade C (Good)	<input type="checkbox"/> Grade C: a great deal of language polishing	<input type="checkbox"/> No records	<input type="checkbox"/> Rejection
<input type="checkbox"/> Grade D (Fair)		BPG Search:	<input type="checkbox"/> Rejection
<input type="checkbox"/> Grade E (Poor)	<input type="checkbox"/> Grade D: rejected	<input type="checkbox"/> Existed	<input checked="" type="checkbox"/> Minor revision
		<input type="checkbox"/> No records	<input type="checkbox"/> Major revision

### COMMENTS

#### CONFIDENTIAL COMMENTS TO EDITOR:

The review consolidates the knowledge of a topic which at best is scattered across the journals. The language needs minor polishing and the section on 'Future perspectives' needs to be more specific in details.

#### COMMENTS TO AUTHORS:

1. The language requires checking for spellings, erroneous full forms of abbreviations, break in continuity of sentences. 2. Section on 'Future perspectives' needs to be more specific in details.

### COMMENTS

#### CONFIDENTIAL COMMENTS TO EDITOR:

This review is detailed to tell the relationship between PPARs and oxidative stress.

#### COMMENTS TO AUTHORS:

This work proposes an extensive review on regulation of Redox signaling by PPARs in the cardiovascular system, and this is the first time to verify the relationship between PPARs and oxidative stress. As such, the matter is of interest, and I have a question and two advises: question: Dual-PPAR agonists may offer opportunities for its beneficial effects, but what is the relationship between dual-PPAR agonists and oxidative stress? advise: 1. Part of literatures which you cited are too old, may be you can delete some to streamline the words; 2. You divided your manuscript into five parts, but you lost Part "I".
