Manuscript Type: Basic Study

Epithelial-to-mesenchymal transition in pancreatic ductal adenocarcinoma: characterization in a 3D-cell culture model

Nicoletta Gagliano, Giuseppe Celesti, Lorenza Tacchini, Stefano Pluchino, Chiarella Sforza, Marco Rasile, Vincenza Valerio, Luigi Laghi, Vincenzo Conte, Patrizia Procacci

Institutional animal care and use committee statement

In this study, only commercial cell lines were used, therefore no Institutional animal care and use committee statement is needed.

Prof. Nicoletta Gagliano
