The description of this case is very interesting, well documented and with a good illustration. It is very unusual clinical complication that is necessary to know

Reviewer's code: 03317203

Well written article on an interesting case. The report is well presented and the discussion is thorough and informative. I'll think twice before making a diagnosis of malignant ascites.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Yours sincerely,

Kennoki Kyo, MD, PhD
