

Informed consent statement

The need for informed consent in this study (WJG-24411) was waived by the Chinese PLA General Hospital Institutional Review Board because the study was a survey of physicians' perception using questionnaires with no risk for the participants and no individual physician information was revealed under the condition of anonymity.

Corresponding author:

Yun-Sheng Yang

A handwritten signature in black ink, appearing to be 'Yun-Sheng Yang', written in a cursive style.
