

ESPS Manuscript NO: 25120

Title: Stochastic Resonance Whole Body Vibration Increases Muscle Relaxation but not Cardiovascular Activation: A Randomized Controlled Trial

Manuscript Type: Randomized Controlled Trial

Authors: Achim Elfering, Christian Burger, Volker Schade, Lorenz Radlinger

CLINICAL TRIAL REGISTRATION

The current study included students as participants. No patients were enrolled. Therefore, we are sorry, no clinical trial registration was feasible in Switzerland.

A handwritten signature in black ink, reading 'Achim Elfering'. The script is cursive and fluid, with the first name 'Achim' and last name 'Elfering' clearly distinguishable.

Prof. Dr. Achim Elfering
