

Dear Editor,

I thank the reviewers for their positive comments about the manuscript.

Concerning the language certificate, the degree of High School for interpreters and translators belonging to the Language Editor of our institute has been included.

Moreover I inform you that I tried more and more time to access the site reported in the step 7 of the accompanying letter of my edited paper at [http://www.wjgnet.com/bpg/navdetail\\_85.htm](http://www.wjgnet.com/bpg/navdetail_85.htm). What I obtained is the following message: <http://www.wjgnet.com/bpg/NavDetail.aspx?id=85>". I'm afraid something has gone wrong.

However I hope that after the accurate review of the text by our official Language Editor the manuscript can be classified as "A".
