Dear Editor,

Please find enclosed the edited manuscript in Word format.

Title: Genetics of Type 2 Diabetes

Author: Omar Ali

Name of Journal: *World Journal of Diabetes*

ESPS Manuscript NO: 2674

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated. An abstract, core message and key words etc have been added as requested.

2. As requested by the reviewers, a sentence has been added that references the study of Gaulton et al. All the genes mentioned by the reviewer have not been listed since only the most replicated and significant genes have been covered in this review, but two novel genes discovered in that study have now been mentioned in the review and the appropriate reference has been added.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "Omar Ali". The signature is fluid and cursive, with the first name "Omar" and last name "Ali" clearly distinguishable.
