Dear Editor,

This letter will confirm that the following manuscript for consideration in the World Journal of Nephrology: *What is The Optimal Level of Vitamin D in non-Dialysis CKD Population? Re-Evaluating Thresholds for Serum 25(OH)D Concentrations in Relation to Death, Kidney Progression and Hospitalization.*

included the conflict-of-interest statement in the main text, as follows:

Molina P, Górriz JL and Martínez-Castelao A have received honoraria for giving lectures and for consulting on advisory boards for Abbvie. The others authors declare no conflict of interest.

Should you require additional information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to be 'JL Górriz', with a stylized flourish at the end.

José L. Górriz
