

UNIVERSITY OF HAWAII

Committee on Human Studies

MEMORANDUM

August 5, 2010

TO: Brenda Hernandez, Ph.D.
Principal Investigator
Cancer Research Center of Hawaii

FROM: Nancy R. King *Jean Kowalski*
Director

SUBJECT: CHS #17348- "Linkage of Liver Cancer Patient Data"

Under an expedited review procedure, the research project identified above was approved for one year on August 4, 2010 by the University of Hawaii (UH) Committee on Human Studies (CHS). The application qualified for expedited review under CFR 46.110 and 21 CFR 56.110, Category (5).

This memorandum is your record of CHS approval of this study. Please maintain it with your study records.

CHS approval period for this project will expire on August 3, 2011. If you expect your project to continue beyond this date, you must submit an application for renewal of this CHS approval. CHS approval must be maintained for the entire term of your project.

If, during the course of your project, you intend to make changes to this study, you must obtain CHS approval prior to implementing them. Unanticipated problems that are likely to affect study participants must be promptly reported to the CHS.

You are required to maintain complete records pertaining to the use of humans as participants in your research. This includes all information or materials conveyed to and received from participants as well as signed consent forms, data, analyses, and results. These records must be maintained for at least three years following project completion or termination, and they are subject to inspection and review by CHS and other authorized agencies.

Please notify this office when your project is complete. Upon notification, we will close our files pertaining to your project. Reactivation of CHS approval will require a new CHS application.

Please contact this office if you have any questions or require assistance. We appreciate your cooperation, and wish you success with your research.
