

Editor in Chief, *World Journal of Clinical Cases*  
Lian-Sheng Ma, President and Company Editor-in-Chief

June, 2016

Dear Editors and Reviewers,

Thank you for your invitation to submit a review for your journal. I would be glad to accept your invitation and we hereby would like to submit our manuscript titled “**A case of severe alcoholic hepatitis treated with granulocytapheresis**” Yukari Watanabe, Tomohiro Iwasaki, Hiroyuki Abe, Shunsaku Takahashi, Kenichi Mizuno, Manabu Takeuchi, Atsushi Eino, Ichiei Narita, and Shuji Terai, and myself for publication as a review in *World Journal of Clinical Cases*. **The provided ID for this invited review is (00188507).**

The main contribution of our paper is that we describe a patient with severe alcoholic hepatitis complicated by an infection who was successfully treated with only granulocytapheresis. We believe that this contribution is theoretically and practically relevant because no effective treatment has been established for severe alcoholic hepatitis. This summary will contribute for many physicians to appropriately diagnose patients and successfully treat them, hence we believe, is worth publishing in *World Journal of Clinical Cases*.

We declare that this work is original, the manuscript is not under consideration by other journals, and the material has not been previously published. All authors approved the contents submitted. We look forward to hearing from you at your earliest convenience.

Thank you for your consideration.

Sincerely yours,

Kenya Kamimura, M.D., Ph.D.
