Title: SPECT-CT In rats with TNBS-induced colitis: a first step toward functional imaging

Authors: Rachel Marion-Letellier, Pierre Bohn, Romain Modzelewski, Pierre Vera, Moutaz Aziz, Charlene Guerin, Guillaume Savoye and Céline Savoye-Collet

Correspondence To: Dr Rachel Marion-Letellier

Institutional animal care and use committee statement: All of the procedures were performed according to the recommendations from the Comité d'Éthique Normandie en matière d'expérimentation animale (Rouen, France). Appropriate measures were taken to minimize the animals' pain or discomfort.

Dr Rachel Marion-Letellier

A handwritten signature in blue ink, consisting of a stylized, cursive script that starts with a large loop and extends into a long, sweeping horizontal stroke.
