

Name of Journal: World Journal of GASTROENTEROLOGY
ESPS Manuscript NO: 29212
Manuscript Type: CASE REPORT

“En bloc” caudate lobe and inferior vena cava resection following
Cytoreductive Surgery and HIPEC for peritoneal and liver metastasis of
colorectal cancer.

Institutional Review Board (IRB) statement: the institutional tumor board
has the treatment approved and the therapy decision was made among the
multidisciplinary team. Since this case was not part of a study was not
necessary to carry out an IRB statement.

Informed consent statement: The patient involved in this study gave her
written informed consent authorizing use and disclosure of her protected health
information. Regarding data privacy protection, this informed consent cannot be
disclosed.

A handwritten signature in blue ink, consisting of several overlapping loops and a long horizontal stroke extending to the right.
