Subho Chakrabarti

**Running title:** Chakrabarti S. Treatment-adherence in bipolar disorder

## **LANGUAGE EDITING CERTIFICATE**

Three of the four reviewers have not suggested any changes to the language of the manuscript. One reviewer has suggested "minor language polishing", which has been carried out in the revision according to the suggestions of this reviewer. Based on these reviews I believe that the language of the manuscript will reach Grade A without the need for employing a professional editing service.
