Title: *Empirical Anticoagulation for Patients in Sinus Rhythm at High Risk of Ischaemic Stroke – a Review of Current Literature*

Corresponding Author: Dr Muzahir Tayebjee

---

Dear Professor De Luca, Professor Li and Professor Wong,

Many thanks for reviewing our article and for your very useful suggestions and comments. We have now had an opportunity to revise our paper in light of these observations and we hope our changes meet with your approval.

To summarise the changes, we would like to provide a point-by-point response to each of the comments:

*1) Please add the informations of title page and these section according to the guideline and format attached, thanks!*

We have added sections entitled *Running Title, Authors, Author Contributions, Supportive Foundations, Conflict of Interest Statement and Correspondence to, Abstract, Key Words and Core Tip*.

*2) Please put the reference numbers in square brackets in superscript at the end of citation content (Before the full stop) or after the cited author's name. Please check throughout the text.*

We have altered the reference numbers so that they are in square brackets and in superscript throughout the text.

*3) Please add PubMed citation numbers and DOI citation to the reference list and list all authors. Please revise throughout.*

We have added PubMed citation numbers and DOI citation to the reference list. We have also listed all authors.

Many thanks for considering our article once again.

Yours faithfully,

**Dr. Muzahir H. Tayebjee**
