

30283 Conflict of interest statement

Autoantibody profiles in autoimmune hepatitis and chronic hepatitis C identify similarities in patients with severe disease

Sulimani, Iraq, 13th November, 2016

I can confirm, on behalf of all the authors, that none has a conflict of interest, related to data and information presented in this manuscript.

Yours truly,

A handwritten signature in black ink, appearing to read 'Kawa Amin', with a stylized flourish at the end.

Kawa Amin
