

Dear reviewers,

Many thanks for your kind comments and suggestions.

- I have amended the manuscript and I have corrected the typo mistakes such as “p” value which is in capital letters now.
- Abbreviations have been reviewed. I have added the role of Doppler ultrasound in the Pathophysiology part of the paper.

I have also updated the paper with one abstract from the recent AASLD Liver Meeting 2016, in the “predictors of response” part.

And, I have changed the title of the Editorial to “**HEPATORENAL SYNDROME. UPDATE ON DIAGNOSIS AND THERAPY**” to avoid duplication according to Google Scholar.

A handwritten signature in black ink, appearing to read 'Juan G. Acevedo', with a large, sweeping underline that extends to the left and then curves back under the signature.

Juan G. Acevedo
